**Project title:** “Access to Justice, Security and Human Rights Strengthening Program”

## Annex 2: video clips?

### Annex 3: Testimonials

**Project title:** “Access to Justice, Security and Human Rights Strengthening Program”

**Mrs. Rhoda Samuel women leader in Bazungua** “Much thanks to RDAA for bringing such a program to Bazungua, it will be better that the formation of the three commissions should not delay because I am one of the victims who lost 8 people as members of the entire family at spot from gun shoot, all the house property was also looted and houses were destroyed, I will be the happiest if transitional justice materialize in the nearest future”

**Mr. John Dasio of Gangura Payam** “I appreciate the program and let this awareness cover the state so that all should be aware of traditional justice, I also want to ask a question will the hybrid court truly judge all what happened like the mass killing, destruction of homes, rapping and so on because since the signing of the revitalized peace agreement there is still killing of innocent people by known men in uniform and unknown gun men, and government know about it and no action taken”

**Mr. Baraka Isaac a youth leader in Kuzee residential area** “I thank RDAA for bringing such awareness to make people understand and know about transitional justice which explained about the rights of people, the formation of the three commissions if is really true will end conflict and bring everlasting peace to South Sudan”

**Mr. Samuel Baaki of Tindoka in Tindoka Boma Yambio County** “I am very delighted to express my happiness and feelings to the participants, why is it so long to form this commissions? I strongly emphasize that government should hurry up with formation of the commissions to let people’s hearts cool down because people are still in great sorrow for many that affected them, how will the anger cool down? People need peace and continue development”
